

LESSON 25

Warm-up

Are you wearing your Draw Squad suit? Cool, eh? We should have made these suits in Lesson 1! Now all we need is an "Art Launch." We need to get a Draw Squader chosen to be the first artist in space. Hmmmm. Who should it be? I've decided that because of the inherent risks, as your Draw Squad leader, it should be me. I'm glad we all agree. I was prepared to write 12 pages as to why it should be me. Since you didn't raise even a little fuss, I guess I'll be going. What a cool Draw Squader you are! Yahoo! I'm going into orbit! I promise I'll create another drawing book all about the experience! I'll be sure to launch you a postcard.

Key Drawing Word: **Advanced Density**

DENSITY: This is the final element of drawing that can really make your drawings jump out at you in 3-D. To use **density** draw the objects that are closer to you darker and in more detail than the objects that are farther away.

Margaret Hansen, 1st Grade Teacher, Montevideo School/San Ramon, CA

Create your own key word symbol for density
