

# PICTURE OUT OF A WORD

1. You will use your sketchbook to start this project.
2. You will need to pick 6 words from this list or pick your own and get them approved by Mr. Shunt.
3. You will make the image of the word out of letters so it is recognizable as the image.
4. Your sketch should be nice enough to photograph and post to your website. If it takes a minute, most likely the quality of your work will be reflected in your grade. If you spend more time, your grade should reflect that as well.
5. You can use multiple up to three colors if needed.
6. You will pick three to make in Photoshop to be posted on your website.
7. You will also be graded on difficulty. If you pick super easy words, your level of difficulty will be considered. If you pick a variety of easy and difficult, your grade will reflect that as well.
8. Images should be two to a page in your sketchbook
