

LESSON 10

Warm-up

Let's try something energetically new. Instead of sitting while stretching with "finger aerobics," try this. Stand up and hop around the room on one leg waving your hands wildly while singing "Shade, Shade, I love to shade...yipee...oh...yipee...yeah!" Oh, no! Another art attack! Picture this... "Shade, Shade, Shade" hitting the top pop chart, while millions of people hop around on one leg. Forget MTV. We'll have Draw TV! Twenty-four hours of cool drawing lessons put to the sound of Mozart. Audio and visual art development. Creative thinkers unite! This is great. A new organization for the "G S D S ers." We'll call this the S S C C T F D T V. (The Society of Super Cool Creative Thinkers For Draw TV)! For your warm-up make 6,000 "S S C C T F D T V" buttons and distribute them among your pals.

Key Drawing Word: Daily

Here's an original idea. "Practice makes perfect." It's impossible for me to stress how important it is for you to doodle everyday even if it's only for ten minutes! You've got to keep that imagination muscle active. Use it or lose it! You've come this far, over 50 sketching exercises. Ten Key Words and hours of creative thinking. Let's make sure all this great stuff gets transferred into your long-term memory. Draw everyday!
