

# LESSON 29

## Warm-up

Are you getting tired of looking at those boring paper placemats in fast food restaurants? Let's turn them into another Art Attack! Next time you're caught in the claws of the fast food frenzy, pick up a few extra placemats. Later that evening, design a couple of Draw Squad Placemat Lessons. Mail them to the restaurant's headquarters with your vote to turn those boring placemats into exciting Draw Squad lessons. I can see it now. Fast food restaurants will be competing to see who can print the coolest "artsy" placemats. Just another example of our global Draw Squad influence.

## Key Drawing Word: **Advanced Attitude**

**POSITIVE ATTITUDE:** Every artist needs a personal artistic vision in order to aspire to greater achievement. This vision enables the artist to maintain a **positive attitude** because the artist will not become entrapped with daily problems or set-backs, but will strive for personal artistic success and accomplishment. A **positive attitude** is essential for overcoming all obstacles and for discovering solutions.

David Humphreys, Arts Educator/Washington, DC

Create your own key word symbol for **attitude**
